FAQ

Q. What is AMC?

Annual Maintenance Contracts (AMC) cover almost any service that your business owns and uses as long as it can be maintained. It's an agreement between your business and a maintenance services provider that they will provide regular maintenance to your company under the terms of an annual contract.

Q. Why is AMC required?

AMC services provide security for all IT services software solutions that your business uses. AMC helps you have an annual fixed budget for managing your IT system. It also enables you to avoid unexpected downtimes and reduce maintenance costs.

Q. What are the types of software maintenance?

There are 4 main types of software maintenance, namely Corrective Software Maintenance, Adaptive Software Maintenance, Perfective Software Maintenance, and Preventive Software Maintenance.

Q. How much does our AMC services plan cost ?

Our team will analyze your device and provide you with the best price according to your budget.

RENTAL INFRASTRUCTURE
